emails

Acclivity Code: 05	
Allocated Headcount	32 employees
Proportional Share	6.425702811244979%
Allocated Charge	167.06827309236945

- only 2 numbers after the decimal point will look nicer, what do you think?
- add for PO emails also
 - vered.bashari@priority-software.com
- **big change**
 - now we are running in a loop on the companies list
 - for each company - send email
 - the requested change:
 - to avoid multiple mails for each contact - for example, Aya is getting 3-4 emails since she is incharge of 3-4 companies
 - we want to run on contacts - and send to each contact and send him all of the relevant companies for him
- remove the "ALL" contacts from cc - send them only the summery email

EVENT CONCEPT
Business Success

הצטרפו אלינו להרפתקה משפחתית בספארי

היי לכולם,
אנחנו שמחים להזמין אתכם ואת בני משפחותיכם לאירוע חוויתי במיוחד – יום ספארי משפחתי
מדובר ביום שכולו טבע, חיבור ומשפחה, בו נצא יחד למסע בין בעלי חיים מרתקים, נהנה מפעילויות ייחודיות לכל הגילאים, ונייצר רגעים בלתי נשכחים – גם לילדים וגם למבוגרים.
מה מחכה לנו ביום הזה?

• סיור חווייתי בין בעלי החיים בספארי

• פעילויות והפעלות לילדים

• פינות ישיבה ומנוחה למשפחות

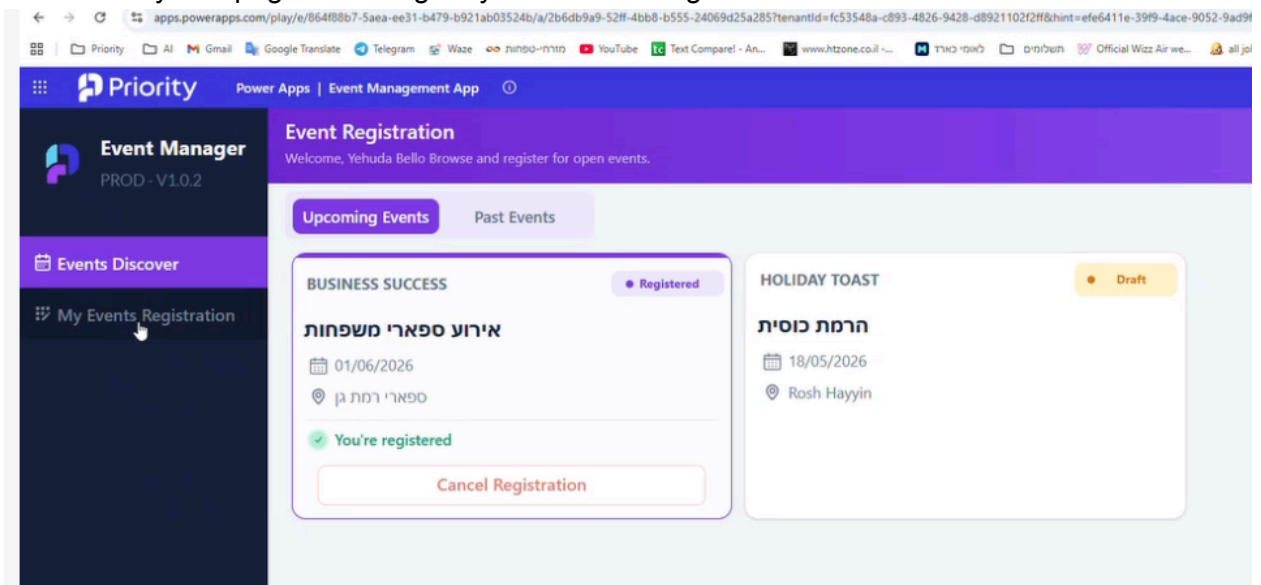

the photo is loaded after 5 seconds +-
Can we improve that?

regular user

- events - after user cancel registration - he cannot sign in again
 - **enable resign**
- changing again -
 - add status: **open for registration**
 - hide draft events from "Events Discovery"
 - Do we need "Past events" as an employee? do I have what to do with this info?
 - employee should not see "Past events"
 - Upcoming Events - employee should see also event with attendance mode "company" - just without registration form
 - employee should see only events for his company
- we want only one page to manage my events as a regular user

- I want to have only Upcoming events - without past events - and to be able to edit events - update or cancel registrations

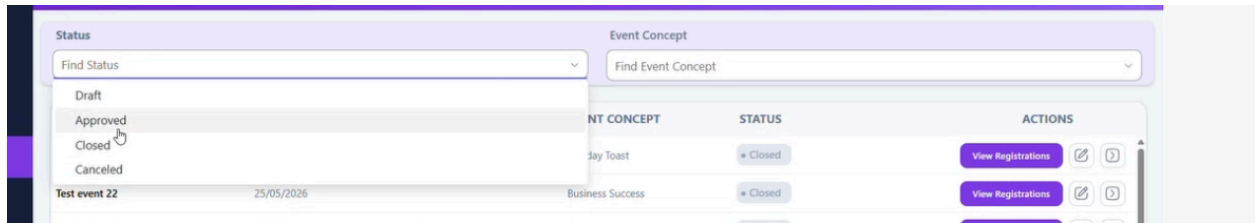

The following log details the consolidated requirements and updates for the Regular User/Employee Event Management View, formatted as requested.

Topic	Description	Current State (Summary)	Desired State (Summary)	Type	Status
User View Consolidation	Restructure the regular employee interface to provide a single, centralized view for managing their event attendance.	Event views are potentially fragmented, showing irrelevant data like past events.	Consolidate the experience into a single "My Events" page.	Featur... ▾	Ready ... ▾
Upcoming Events Only	Restrict the list of events shown to regular employees to only those scheduled for the future.	Employee currently sees "Past events".	Eliminate "Past events" from the employee's "My Events" view, showing only Upcoming Events .	Logic/F... ▾	Ready ... ▾
Company-Specific Visibility	Only display events relevant to the employee's registered company.	Employee may currently see events that are not relevant to their company.	Employee should see only events for their company . This includes events set to attendance mode = "company" .	Logic/S... ▾	Ready ... ▾

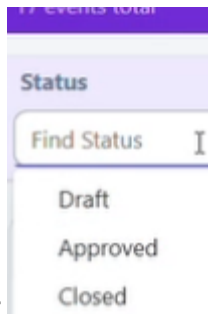

Re-registration After Cancellation	Enable employees to sign up for an event again after they have canceled their initial registration.	User cannot sign in again after canceling registration.	Implement the ability to "enable resign" (re-register) for an event.	Feature ▾	Ready ... ▾
New Event Status	Introduce a dedicated status to clearly indicate when an event is actively open for employee sign-ups.	Current event statuses are limited to Draft, Approved, Closed, and Canceled.	Add the status: "Open for registration" .	Feature ▾	For Dis... ▾
Hide Draft Events from Discovery	Prevent non-finalized events from being visible in general event discovery lists for regular users.	Draft events may appear in the public "Events Discovery" view.	Hide draft events from the "Events Discovery" view.	Securit... ▾	For Dis... ▾
Event Management Actions	Ensure the consolidated "My Events" page provides users with the ability to manage their current status.	User needs dedicated options to manage their current registration status.	The "My Events" view must allow the user to update or cancel registrations .	Featur... ▾	Ready ... ▾

Events

- filters: option to choose multiple statuses

- add default filter - without canceled events

choose this 3 :

- can we hide the “view registration” if the event is based on companies?

Events form

suppliers

- default value of budget items - events

gifts

- default value of budget items - gifts

Advance %

		%	0
--	--	---	---

add ILS currency next to the ILS field

☞

- also in cost field (and any ILS field)

attachments

- it is not clear we already added attachment
- add finish button in the attachments screen + display in the form main ui we have uploaded attachments

Supplier Name	Budget Item	Cost	Order Number	Advance %
הולי בייגל	Emp. Experience, Events, HR	500		0 % 0

Attachments 

colors: (low priority)

Supplier Name

הולי בייגל

when opening dropdown list - is it possible to make the color a bit darker? (low priority)

- add totals
 - in the end of each section
 - total suppliers
 - total gifts
 - at a top level
 - total all

Suppliers

+ Add Supplier

Supplier Name	Budget Item	Cost	Order Number	Advance %
הולי ביגל	Emp. Experience, Events, HR	500		0 % 0
Attachments				
ביסקווי	Emp. Experience, Events, HR	200		10 % 20
Attachments				

Add Gift to Event

+ Add Gift

Supplier	Budget Item	Quantity	Unit Price
פיצה טיים - ישעיהו פתח	Emp. Experience, Gifts, HR	300	20
Total Cost (auto-calculated)		6000	
Delivery Address		Advance % 0

-

concise:

in the UI we have advanced” and in the email we have “down payment” - can we change the email to be advanced also?

Items: 300 units @ 20 ₪each

items: 300

price: 20 ils each

advanced -	Total Amount: 6000 ₪
	Down Payment: 0% (0 ₪)

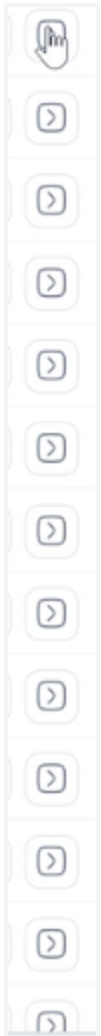

-f 0 can we hide this line?

data

- adding refresh data button - in addition to daily sync - let the user manually trigger the sync
 - use case: the user just add new supplier and want to choose it in some screen
 - location - in the top level screen

-

events:

remove the “read only” button

event form

- site - add new value: All Companies
- Participant companies:
 - can we add "select all" button?

The screenshot shows the 'Suppliers' form. It has a header bar with a shopping cart icon, the title 'Suppliers', and a '+ Add Supplier' button. The form contains several input fields: 'Supplier Name' (with a dropdown menu showing 'חברת הפקות HM'), 'Budget Item' (with a dropdown menu showing 'Emp. Experience, Events, HR'), 'Cost' (with the value '1500000'), 'Order Number' (empty), 'Advance %' (with the value '30'), and a total cost field showing '450000'. There is an 'Attachments' button with a trash icon.

- order number - can we move this field to be under the supplier name? (new row)
- attachments - **loading without finish**

The screenshot shows the 'Attachments' modal. It has a title bar with 'Priority' and 'Power Apps | Event Management App'. The modal title is 'Attachments' with a subtitle 'Manage event documents and files'. Inside, there is an 'Upload New Attachment' section with a file upload area showing 'Azure App Registration Instructions.pdf' and a 'Document Type' dropdown set to 'Other'. A large loading spinner is in the center with the text 'Please wait...'. At the bottom, it says 'No attachments found.' and there is an 'Upload Attachment' button.

- gifts:

The screenshot shows the 'Add Gift to Event' form. It has a header bar with a gift icon, the title 'Add Gift to Event', and a '+ Add Gift' button. The form contains several input fields: 'Supplier' (with a dropdown menu showing 'Find Supplier'), 'Budget Item' (with a dropdown menu showing 'Find Budget Item'), 'Quantity' (with the value '0'), 'Unit Price' (with the value '0'), 'Total Cost (auto-calculated)' (with the value '0'), 'Advance %' (with the value '0'), and 'Delivery Address'. There is an 'Attachments' button with a trash icon.

- bug - the data disappear some of the times and need to refill the form
